

Emergency Medicine Update Europe Testimonials

Emergency Medicine Update Europe has travelled to Burgundy, France (2009), Tuscany, Italy (2011). La Rioja, Spain (2013) and Provence, France (2015).

Don't take our word for it ... hear what some of our past participants have to say about conference.

I was one of the EMU Europe attendees last year and have to say it was one of the best conferences I have ever been to.

Wonderfully organized conference. I had a great trip.

Thanks for organizing a great trip and conference.

It was a fabulous trip, thanks so much for your hard work. We had a great time.

Great format – education and exercise.

Practical, rapidly usable information.

Once again – an awesome conference.

Excellent in all respects – best conference I've been to in Emergency Medicine.

Truly a superb week.

Fantastic conference – loved every minute of it.

A stunning success in all perspectives – travel, CME, biking & hiking, eating & drinking. Exceeded my expectations.

Thank you for our best trip ever.

Great conference and conversation. Supremely well organized.

Congratulations to all the organizers of such a magnificent event. My wife and I enjoyed every aspect of it – the teaching was great and the bicycling even better. We are looking forward to the next one.

A superb conference, great cycling and wonderful food and wine. Can't ask for better than that.

We think that this is the best trip we have ever gone on. The CME was excellent.
